World Ranking 2021 (calculated over the last 5 years)

The committee of the International Sea Fishing Federation (FIPS-M) has decided to maintain the world ranking in 2021. This ranking will be calculated over the last five years (2016, 2017, 2018, 2019, 2021).

But, if due to pandemic (Covid-19) reasons a nation is not allowed to enter the host country, or the conditions for return to its country are very difficult (ex.: extended quarantines), the member federation can request an exemption not to count the last year (2021) for its competitors. To this request must be attached the official national sanitary dispositions, dated less than 2 months prior to the championship, attesting to these conditions. The request must be made for each championship.

In case the request is accepted, the competitors in question are not considered absent, but their world ranking will be calculated over the remaining four years (2016, 2017, 2018, 2019).

A purple circular stamp with the F.I.P.S.M. logo is overlaid with a handwritten signature in black ink.
